

RJ Power Connections Limited is an electrical contractor. The main core business centres on the supply, installation and commissioning of electrical services and systems.

RJ Power Connections Limited is committed to meeting the requirements of the Environmental element of its Integrated Management System and ISO 14001:2015.

This Environmental Policy sets out our approach to environmental management which is key to achieving our company Vision to exceed client expectations.

At RJ Power Connections Limited we will aim to improve our environmental performance and leave a sustainable environmental legacy for future generations.

We believe that outstanding environmental performance is a central part of being a responsible and successful company and will help us to protect and enhance the UK's environment.

We expect everyone who works for and with RJ Power Connections Limited to apply the following key principles agreed by the Senior Management Team to guide our work activities.

- We will as a minimum comply with all relevant environmental legislation, standards and requirements set by our stakeholders;
- We will identify our significant environmental impacts and take action to prevent pollution to air, water and land which may occur as a result of our operations;
- We will set objectives and targets to monitor our environmental performance;
- We will buy and use natural resources in a responsible and sustainable manner;
- We will where possible reduce the amount of material we use and minimise the amount of waste we produce;
- We will engage with our neighbours and those affected by our works;
- We will become more energy efficient and where possible reduce our carbon emissions for our fleet operations;
- We will endeavour to make our projects resilient to weather impacts and future changes in climate;
- We will provide employees with the relevant competence and training to enable our policy;
- We will continually improve our environmental performance;
- We will implement and maintain an environmental management system that follows the principles of ISO 14001:2015.

All employees and others working for RJ Power Connections Limited are required to comply with this policy to ensure they co-operate and carry out activities in a responsible manner.

It is the responsibility of RJ Power Connections Limited management and supervisory staff to ensure that this policy and its arrangements are implemented.

This policy will be reviewed annually and revised as often as may be deemed appropriate by RJ Power Connections Limited and then communicated and explained to all employees and sub-contractors.

This policy is available to the public and all other interested parties on request.

Signed:

Glenn Rowatt
